

CPE UPDATE

The Nebraska Board of Public Accountancy now requires (4) hours of ethics as part of your 80-hour requirement for your biennial active permit to practice. The Board's intent is to remain flexible and allow the requirement to cover broad and general course content for ethics. You are not required to complete the (4) hour requirement in one course setting. You can submit one-hour increments for portions of courses that cover ethics.

The Board recommends that you receive Board approval in advance to confirm acceptance for any courses completed for CPE.

If you have any questions and/or concerns, do not hesitate to contact the Board office at (402) 471-3595 or 1-800-564-6111 (within Nebraska). For further information go to www.nol.org/home/BPA
